1. WAP in C to display Hello World.
2. WAP in C to display WELCOME TO DCSA.
3. WAP in C to display integer A=20 and B=30.
4. WAP in C to display float X=2.3 and Y=4.90.
5. WAP in C to find sum C=A+B where A=10 and B=30.
6. WAP in C to find sum Z=X+Y where X=2.45 and Y=4.56.
7. WAP in C to find following for A=20 and B=34
    a. Subtraction
    b. Multiplication
    c. Division
    d. Modulo (%)
8. WAP in C to find following for A=14.56 and B=24.3
    a. Subtraction
    b. Multiplication
    c. Division
9. WAP in C to find all arithmetic operations (+,-,*,/) for two input(Integer) from user.
10. WAP in C to find all arithmetic operations (+,-,*,/) for two input(float) from user.
11. WAP in C to find area of circle where radius takes from user.
12. WAP in C to find area of triangle where all three sides take from user.
13. WAP in C to find average of four numbers and numbers take from user.
14. WAP in C to find ASCII Value of a Character
15. WAP in C to find the Size of a variable
16. WAP in C to find digit sum of given number n=1234
17. WAP in C to find odd digit and even digits sum of given number n=12345.
18. WAP in C to find reverse of a given number n=1234.
19. WAP in C to convert Fahrenheit into Celsius using C = (5/9) * (f - 32).
20. WAP in C to find distance in meter where input as kilometer.
21. WAP in C to find swapping of two variables using third variable.
22. WAP in C to find swapping of two variables without using third variable.

23. WAP in C to Calculate Area of Right angle Triangle
24. WAP in C to Calculate Area of Equilateral Triangle
25. WAP in C to find area and circumference of circle
26. WAP in C to find the simple interest
27. WAP in C to calculate sum of 5 subjects and find percentage.

28. WAP in C to display a number if it is negative

29. WAP in C to check whether the candidate's age is greater than 17 or not. If yes , display " Eligible for Voting".

30. WAP in to Check whether an integer is odd or even.

31. WAP in C to check given number is greater than 100 or not.

32. WAP in C to find two numbers are equal or not. Use all possible methods.

33. WAP in C to find square of number whose least significant digit is 7.

34. WAP in C to find the greatest of two numbers.

35. WAP in C, Read the value of a, b, and c through keyboard. Add them and after addition check if it is in the range of 100 and 200 or not.

36. WAP in C to find the roots of quadratic equation by using if-else statement.

37. Write a program that execute true block if inserted number is equal to 99 otherwise false blocks.

38. Write a program to find Maximum out of three numbers

39. Write a program to find Maximum out of three numbers (Using Conditional Operator)

40. Write a program to give bonus according to grade of employees. There are only following three grades available.

Employee Grades	**Bonus**
101	**1000/-**
102	**1500/-**
103	**2000/-**

41. WAP in C to check whether the given year of input is a leap year or not.

42. WAP in C that reads the customer number and power consumed and prints the amount to be paid by the customer.

Consumption Units	**Rate of Charge**
0-200	**Rs.0.50 per unit**
201-400	**Rs.100 plus Rs.0.65 per unit excess 200**
401-600	**Rs.230 plus Rs.0.80 per unit excess of 400.**

43. WAP in C to calculate gross salary of a person where DA= 15% of basic salary, TA=19% of basic salary and HRA=25% of basic salary.
